Documentation — Technical documentation, knowledge base articles, incident reports, root-cause analysis.

EXPERIENCE

Platform Support Admin Co-op

May 2026 – August 2026

Manitoba Public Insurance — Winnipeg, MB

- Managed external collaboration and access requests using Microsoft Entra ID, Teams, and SharePoint Online.
- Supported Microsoft 365 administration, including Exchange Online, Outlook troubleshooting, and mail trace investigations.
- Assisted with Veeam backup administration/monitoring and ticket resolutions.

Banquets Assistant

August 2023 – Present

Assiniboine Park Conservancy — Winnipeg, MB

- Supported back-of-house operations and ensured efficient workflow.

Customer Service Associate

January 2019 – September 2020

Technocrat — Lagos, Nigeria

- Provided technical support for hardware and software issues, documenting resolutions and escalating complex problems when required.
- Communicated information to customers and team members clearly.

PROJECTS & PRACTICAL EXPERIENCE

- Created and configured a network using Cisco Packet Tracer; version-controlled lab files using GitHub.
- Diagnosed and resolved simulated network issues in CompTIA lab simulations.
- Performed vulnerability scans on Metasploitable using Nessus; analyzed high-risk findings and applied critical patches to reduce system vulnerabilities.
- Configured hosts and monitored services using Nagios, identifying system health issues.

- Conducted event log analysis with Windows Event Viewer and Task Scheduler to identify abnormal system behavior and support troubleshooting efforts.
- Diagnosed hardware issues, including memory-related POST beeps; documented full troubleshooting workflow.
- Participated in simulated customer scenarios and incident response/management, performing root-cause analysis and documenting troubleshooting steps.
